### **About Dr. Susan Dalton and Dr. Dalton's Premium Treats**

Dr. Susan Dalton grew up surrounded by animals of all kinds - dogs, cats, chickens, snakes, and even salt water fish. After receiving her Ph.D., she worked with troubled adolescents and served as both a university professor and researcher.

Dr. Dalton began training dogs after adopting Cassie, a 10-week old border collie who had been rescued from under a car. Cassie was traumatized; fearful and aggressive. When Dr. Dalton consulted various experts on how to best rehabilitate Cassie, all of the trainers she spoke with labeled the pup unworkable - a hopeless case.

Susan began reading everything she could about dog training, and personally developed a highly effective program based on positive reinforcement. Using this philosophy, she founded the California School for Dogs Inc. in 2009. Since then, Dr. Dalton has trained hundreds of dogs - specializing in frightened, aggressive and traumatized animals.

With healthy treats a cornerstone of her training program, Dr. Dalton wasn't satisfied with the dog treat options available to her. She started making her own treats in 2012, using clean and simple ingredients like chicken, beef, and pork. It was her clients who convinced her to make her treats available for purchase. Since then, Dr. Dalton has mastered the creation of a dog treat that is both healthy and *doggy delicious*.

All of Dr. Dalton's Premium Pet treats are sourced, produced, and packaged in the USA. They can be purchased at Amazon.com and at [www.DrDaltons.com](http://www.DrDaltons.com), and are available both as a single purchase and on a monthly subscription basis. These wonderful treats come in three flavors – Simply Beef, Simply Chicken and Meat Medley (made from beef, chicken, and pork).
